

- Legend:**
- CPIN = Input Capacitance
  - ILEAKAGE = Leakage Current at the pin due to various junctions
  - RIC = Interconnect Resistance
  - Rs = Source Impedance
  - VA = Analog Voltage
  - VT = Diode Forward Voltage
  - SS = Sampling Switch
  - RSS = Resistance of the Sampling Switch
  - CHOLD = Sample/Hold Capacitance

- Note:**
1. Refer to the “**Electrical Specifications**” chapter of the device data sheet for more details.
