

- Legend:**
- CPIN = Input Capacitance
 - ILEAKAGE = Leakage Current at the pin due to various junctions
 - RIC = Interconnect Resistance
 - RS = Source Impedance
 - VA = Analog Voltage
 - VT = Diode Forward Voltage
 - SS = Sampling Switch
 - RSS = Resistance of the Sampling Switch
 - CHOLD = Sample/Hold Capacitance

Note:

1. Refer to the “**Electrical Specifications**” chapter of the device data sheet for more details.
