A schematic diagram of an AVR16EB14 microcontroller chip. The chip is rectangular with a double-line border. It has seven pins on the top edge and seven pins on the bottom edge. The text "AVR16EB14" is printed in a large, bold, sans-serif font across the top half of the chip. Below this, on the left side, is a circular logo containing a stylized 'A' shape. To the right of the logo is the number "2247". Below the logo is a small circle, and to its right is the number "543".
